Children are our most precious possession.

July 2015

Summer Improvements

It is crazy to think that as I write this we are over halfway through the month of June and we are getting ready to head into July. The custodial, maintenance, and technology staff are working extremely hard to accomplish a multitude of tasks and projects this summer. Besides the annual cleaning of classrooms, scrubbing and waxing of floors, and cleaning of technology equipment, there is a long list of projects that our excellent staff is tackling this summer. Below are just a few of the items that we are working on to improve our facilities and technology for next year.

- Completion of the new elementary school. The new elementary school is over 90% complete. The finishing items such as flooring, furniture, etc. have started and will be completed by the middle of July to beginning of August. The project is expected to be complete by August 3rd. We are planning a ribbon cutting/community open house on August 18th at 6:00 p.m.
- Painting the cafeteria and pod at the junior high.
- Painting hallways, restrooms, lockers, and some classrooms at the high school
- Re-asphalting high school parking lot.
- Constructing a new concession/restroom facility at the football field.
- Replacing some carpet with tile and retiling some areas at the high school.
- Increasing bandwidth and WiFi access points throughout the district.
- Through the use of grant funding, increasing the amount of technology in the district.

A huge thanks to all of the staff for their hard work during the summer to work through our long list of projects/improvements. We welcome your input as we continually work to improve our school district and buildings and ground. Please feel free to contact the unit office at 618-662-2412 or e-mail jhackney@floraschools.com for any questions, input, or suggestions.
