

Dear Parent/Guardian:

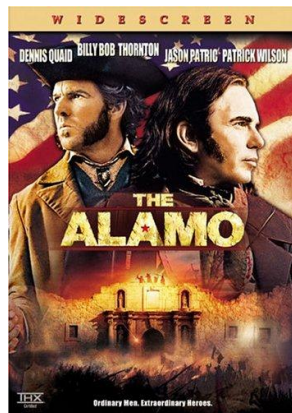

During the course of the year in US History, we will be watching a few videos. A few of the videos we will be watching are historic movies that cover an issue we will talk about in class. Some of these movies have a rating of R for violence in battle scenes. There is no sexual content in these movies. Foul language is not used except for one scene in Glory. We use the movies as visual aids to how life was in that era. I feel each movie I show does has great meaning for my class. For your child to watch these movies I need to have parental/guardian consent. If they do not get this consent from you, they will work on a short report while the class watches the movies. The movies we plan on watching this year are listed below. If there is any I add with a R rating I will inform you before it is watched. Thank you.
